

AudioPressBox[®]

PROFESSIONAL PRESS CONFERENCE
AUDIO DISTRIBUTION AMPLIFIERS

PROFESSIONAL MEDIA AUDIO DISTRIBUTION

From the official audio feed
to every journalist.

AudioPressBox® is a European manufacturer
of professional press conference audio
distribution systems.

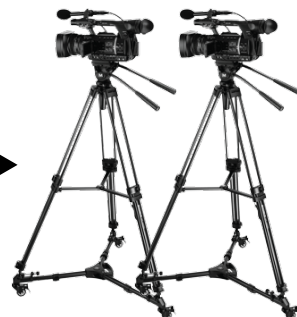

Founded in 2012 as a division of MediaTech Central
Europe, we develop dedicated solutions that connect
the official audio source directly to journalists,
broadcasters, cameras and recording devices.

From portable press conferences to permanently
installed media rooms, **AudioPressBox provides**
a reliable interface between the venue AV system
and the media.

OFFICIAL AUDIO DISTRIBUTED TO MULTIPLE MEDIA OUTPUTS.

Instead of multiple microphones,
adapters and improvised splitters
around the speaker, **AudioPressBox**
creates a dedicated media access
point for the official audio feed.

WHY AUDIOPRESSBOX?

MADE IN EU

European engineering
and manufacturing.

55+ COUNTRIES

International partner
and distribution
network.

ANALOG, DANTE, USB-C

Solutions for traditional,
networked and hybrid
AV workflows.

TAA

TAA-compliant
solutions.

ONE PORTFOLIO. MULTIPLE DEPLOYMENT OPTIONS.

AudioPressBox has the largest portfolio of Press Boxes in the whole world including **Dante-enabled press boxes and press boxes with USB-C connectivity** for both portable and fixed installation.

TRUSTED WORLDWIDE IN DEMANDING ENVIRONMENTS

AudioPressBox solutions deliver reliable press audio distribution across **government institutions, AV system integration projects, rental and live events, sports stadiums, international summits and auditoriums.**

EU COUNCIL

At the EU Council, APB-D216 R-D units deliver up to 8 Dante channels for journalists across Europe, with 2 channels per unit.

DUBAI WORLD EXPO

APB-448 SBs were used at the Dubai World Expo. The units provided a 2-channel system for bilingual press conferences.

PARLIAMENT PRESS ROOM

APB-D100 R and portable expanders APB-008 SB-EX are used at the Hungarian parliament press room.

FRANKFURT AIRPORT

Our portable APB-1.32 CB system delivers the flexibility that makes a real difference at major international airport.

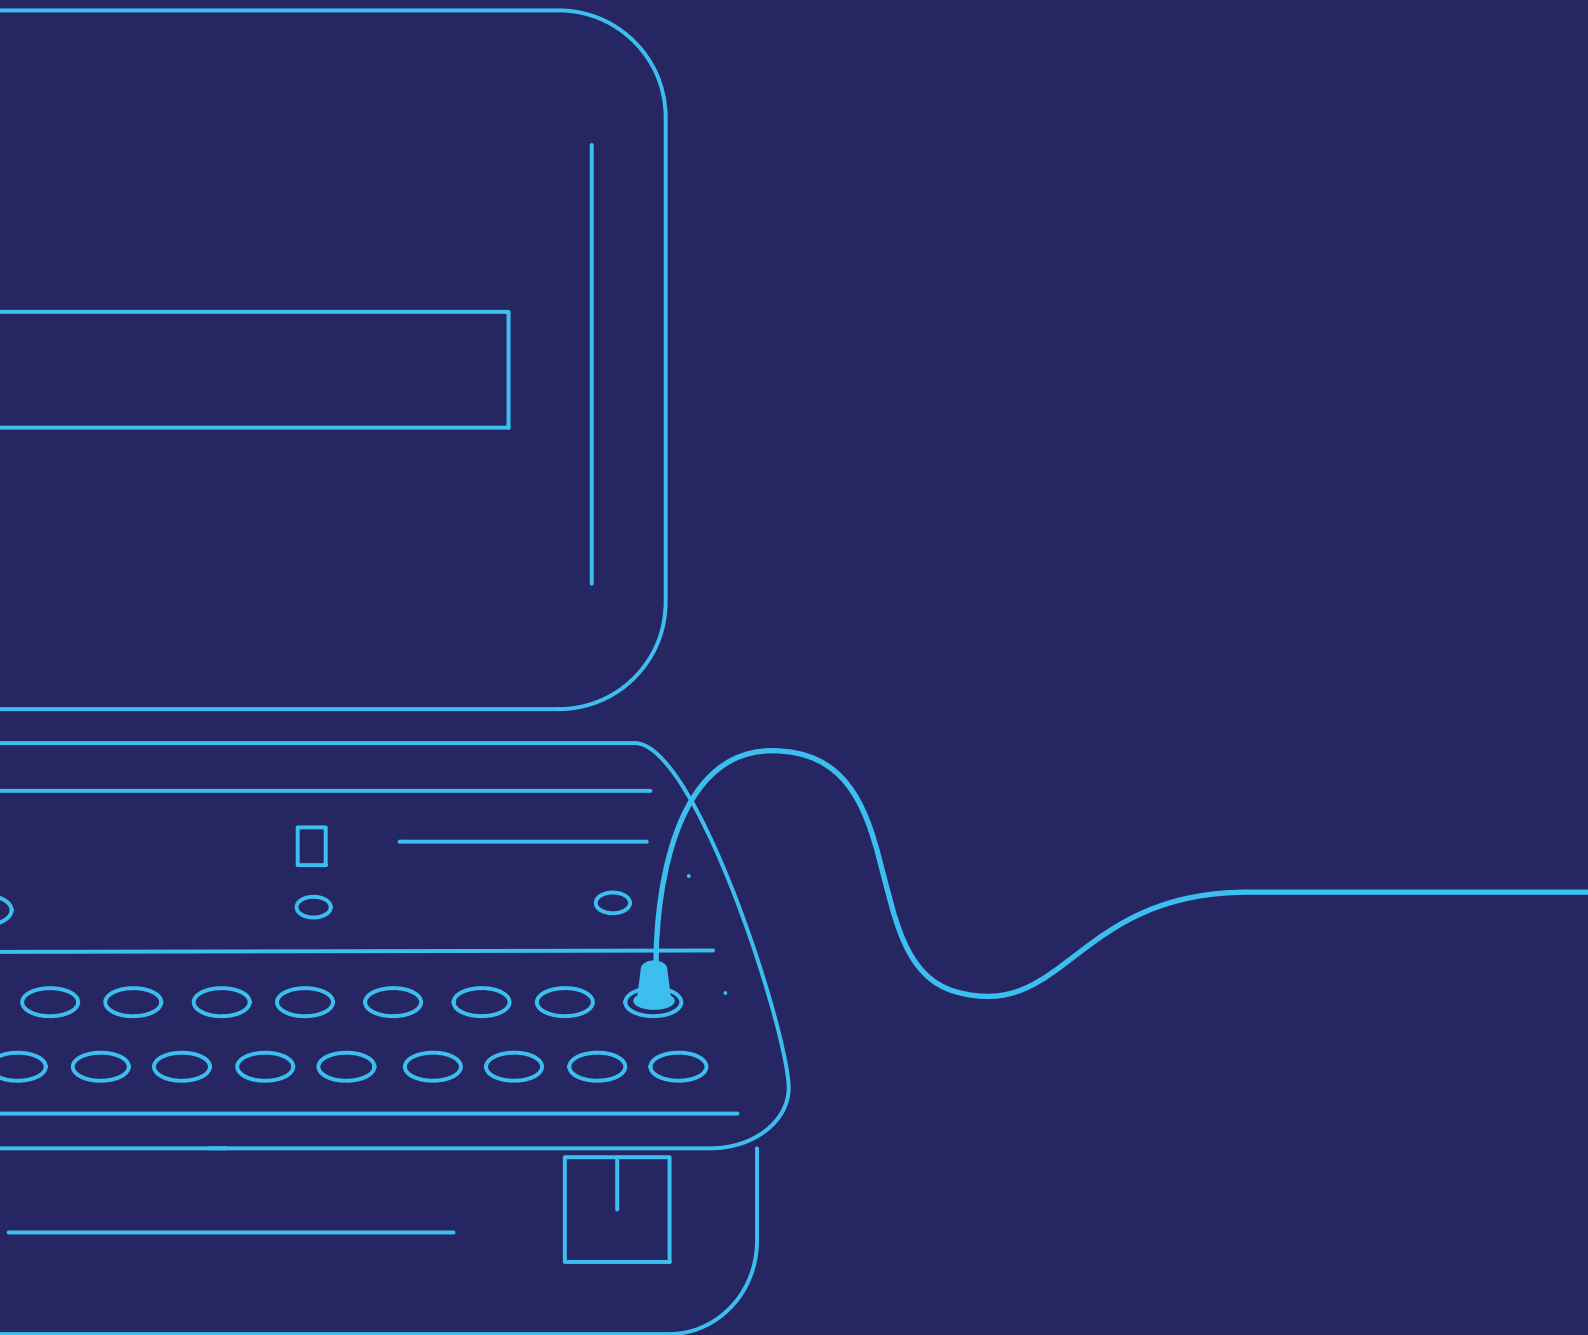

COP 27

Our portable APB-216 C-D units with Dante were used at the COP27 United Nations Climate Conference in Egypt.

UNIVERSITY OF GUATEMALA

AudioPressBox devices provide outputs for the journalists in the press area of the university.

**WE ARE LOOKING FORWARD
TO OUR COOPERATION**
